2008 Berkeley Training Center

At StirFry Seminars & Consulting we have been working diligently on the schedules for all of our training centers around the country, which include the Berkeley Training Center—our cornerstone location. I am proud to announce that the 2008 Berkeley Training Center Schedule has been finalized and registration is now open and available online. When I first started working at StirFry, there were only two trainings offered; today we offer seven core courses. We hope that you will join us to pursue your certification or to brush up on the skills that enrich our lives in all that we do.

I would also like to announce that we have changed the fee schedule for our training centers, introducing a student fee and making the individual rate more accessible for those interested in our trainings and/or Certification Program. For those of you that have financial concerns, I would be happy to talk to you about our work exchange options. I look forward to working with you in 2008!
